PROJECT DRIVESAFE

EFKON India launched DRIVESAFE, a CSR initiative in partnership with schools in Delhi NCR. The initiative was taken up to educate the children about the importance of traffic safety rules.

We designed as well as conceptualized a unique sketchbook, to depict more than 15 traffic safety scenarios in India. It turned out as a fun learning activity for kids as they learned traffic rules while coloring sketchbooks. Skit enactment on the same theme was another supporting activity that reinforced the idea.

PROJECT ADHAAR

EFKON India tried to reach out to the underprivileged children and provided essentials to them. We, along with our employees, contributed as much as possible for their well-being.

Our members provided support to an orphanage in monetary terms and donated various articles such as clothes, books, and other utilities.
